

Date: April 21, 2015

To: Thomas J. Bonfield, City Manager
Through: W. Bowman Ferguson, Deputy City Manager
From: Marvin G. Williams, Director of Public Works

Subject: Agenda Item - Street and Infrastructure Acceptance

Executive Summary

Pursuant to City ordinance, streets and associated infrastructure shall be considered for acceptance for maintenance by the City of Durham when they are improved in accordance with requirements established by the City Council. The following streets and associated infrastructure have been improved to City of Durham standards:

Madison Glen – PH 3

- 1) Walsenburg Drive – from the end of existing pavement @ STA 107+32.77 west to the end of Phase 3 construction @ STA 96+09.98 (1,123') and
- 2) Hidden Treasure Drive – from the centerline of Briana Drive north to the end of Phase 3 construction @ STA 50+40 (138') and
- 3) Briana Drive – from the end of existing pavement @ STA 89+90.95 southwest to the centerline of Walsenburg Drive (991') and
- 4) Moonbeam Court – from the centerline of Walsenburg Drive north through the cul-de-sac (343').

Recommendation

The Public Works Department recommends that the City Council accept the above named streets, as well as the water, sewer, and storm drainage lines located within the street rights of way.

Background:

Madison Glen is located within an area that has been developed and is inside the City Limits. Per the extension agreement executed with the developer, street rights of way and utility easements have been dedicated as public with the understanding that once the streets were built to City of Durham standards and as defined by the agreement, these streets and associated infrastructure would be accepted for maintenance by the City.

Issues and Analysis:

Past practice has dictated that the City of Durham accept streets and infrastructure that are part of new developments with dedicated public rights of way as defined by the extension agreements.

Alternatives:

The alternative to accepting these streets from the developer would be to decline their request and ask that they continue to maintain these streets under private maintenance programs.

Financial Impacts:

Accepting these streets would result in the City spending some additional annual maintenance funds. This expense would be somewhat mitigated by adding additional mileage to the annual Powell Bill listing, resulting in additional State Powell Bill funds for the City.
